### Horizon 2020 Funding

Starting from 1/1/2014

On this site you can find and secure funding for research & innovation projects under the following EU programmes:

- 2014-2020 Horizon 2020 - research and innovation framework programme
- 2007-2013 7th research framework programme (FP7) and Competitiveness & Innovation Programme (CIP)

**Non-registered users**

- search for funding
- read the funding guide & download the legal documents
- check if an organisation is already registered
- contact our support services or check our FAQs

**Registered users**

- submit your proposal
- sign the grant
- manage your project throughout its lifecycle

H2020-GV-2014 Sub call of: H2020-GV-2014-2015  
Publication date: 2013-12-11 Deadline Date: 2014-08-28 17:00:00 (Brussels local time)  
Total Call Budget: €129,000,000 Main Pillar: Societal Challenges  
Status: Open OJ reference: OJ C 361 of 11 December 2013

**Topic: Optimised and systematic energy management in electric vehicles** GV-2-2014

Topic Description | Topic Conditions & Documents | Submission Service

**Specific challenge:** Range limitation, due to the limited storage capacity of electric batteries, is one of the major drawbacks of electric vehicles. The main challenge will be to achieve a systematic energy management of the vehicle based on the integration of components on a sub-systems. The problem is worsened by the need to use part of the storage capacity in order to feed auxiliary equipment such as climate control. In extreme conditions up to 30% of the batteries' capacity is absorbed by these systems. The systematic management of energy in electric vehicles is a means to gain extended range without sacrificing comfort. The challenge is therefore to extend the range of electric vehicles in all weather conditions.

**Scope:** Proposals should address the combination of the following developments: comprehensive thermal management system (including thermal insulation, innovative heating and cooling approaches), battery duration enhancement as a side effect of thermal management, electronic control of energy and/or flow, energy efficiency of electrified accessories, energy harvesting functions and automated and driving strategies.

The Commission considers that proposals requesting a contribution from the EU of between EUR 3 to 8 million each would allow this specific challenge to be addressed appropriately. Nonetheless, this does not preclude submission and selection of proposals requesting other amounts.

**Expected impact:** Research and innovation activities will contribute to a faster introduction of electric and hybrid cars. Cars autonomy will be increased thanks to a reduction of at least 30% of energy used for passenger comfort and at least 30% for component cooling in extreme conditions with reference to vehicles currently on the market.

How to participate H2020 ONLINE MANUAL

The first steps to prepare your proposal and apply for EU research funding. Learn how to find a suitable Call for proposals or project partners and how to submit your proposal.

The following guidance services facilitate your participation:

- **H2020 Online Manual:** step-by-step online guide through the Portal processes from proposal preparation and submission to reporting on your ongoing project
- **Reference documents:** library of legal documents, guidance notes, and additional reference material for H2020 and FP7
- **search for already registered organisations and their PICs**
- **financial viability self-check tool** allows you simulating the financial viability check of your organisation
- **SME participation:** dedicated H2020 guidance page for SME

FIND a call 1 FIND partners 2 CREATE your account 3 REGISTER your organisation 4 SUBMIT a proposal 5

Step 1 - Find a suitable Call for Proposals H2020 ONLINE MANUAL

The Commission publishes on the Participant Portal all the Calls of its research and innovation programmes H2020, and you can search calls from previous programmes (FP7 and CIP). In addition you can find information about some additional calls in the **Other Funding Opportunities** section. If you apply for the first time and do not know yet the programmes, it is useful to read the H2020 Online Manual. It helps you choose the most suitable programme for your area and profile. Besides, you can search according to your research topic with key words and set filters in the calls list.

Your National Contact Point can also help you find the most suitable call for your profile. SMEs are in addition supported by the Enterprise Europe Network.

Step 2 - Find project partners or apply as an individual team or researcher

**Collaborative projects:** most of the EU funded projects are collaborative projects with **at least 3 organisations** from different EU Member States or Associated countries. Various partner search services help you to find organisations that would like to participate in the proposals. You can also post your collaboration

H2020 ONLINE MANUAL

Join the database of independent experts for European research and innovation.

The European Commission appoints independent experts to assist with research and innovation assignments including the evaluation of proposals, monitoring of projects, and evaluation of programmes, and design of policy.

New experts

Who can be an expert?

You have a chance of being selected as an expert if you:

- have high-level expertise in the relevant fields of research and innovation (see call for details on types of expertise).
- can be available for occasional, short-term assignments

REGISTER AS EXPERT

What do expert assignments involve?

Experts, as peer reviewers, assist in the:

- evaluation of proposals
- monitoring of actions

In addition, experts assist in the:

- preparation, implementation or evaluation of programmes and design of policies.

Assignments mainly concern research and innovation, falling within the Horizon 2020 programme designed to address the challenges Europe is facing through funding excellent science, technology and innovation.

Take a look at the most recently funded projects

### Registration overview

The Registration Wizard will guide you through the process of registration. At the end, it will assign and display the Participant Identification Code (PIC) of your organisation.

Please keep the basic legal information (Registration extract, VAT data) of the organisation at hand so you can fill in the forms quickly and correctly. The registration process normally takes about 5-10 minutes to complete. The current Welcome page will prompt you for some preliminary information about your organisation required to check if this organisation has already been registered, as well as to identify any existing PIC numbers of similar organisations that could potentially match your request.

Please enter the data of the organisation that you are registering. If you register on behalf of another entity, please fill in the data accordingly.

Note: To access a previous registration of yours, close this window and select the relevant PIC number from "My Organisations" -> "Organisation" tab in the Participant Portal.

## Welcome

What is the Legal Name of your organisation?

What is the Country of registration?

Does your organisation have a Value Added Tax (VAT) number?  Yes  No

Does it have a Business Registration Number?  Yes  No

Does it have a website?  Yes  No
